Early Childhood Learning Center

ST. PETER'S CATHOLIC SCHOOL

READY, SET, GROW...

**COGNITIVELY. EMOTIONALLY. PHYSICALLY.
SOCIALY. SPIRITUALLY.**

Every child develops in different ways and at different times. Our goal is to nurture your individual child's interests and skills by offering a safe, positive, and age-appropriate climate that ignites their passion for learning. Through an integrated curriculum full of hands-on activities, children explore, construct, and collaborate, interacting with their surroundings and making connections with others.

Curriculum concentrates on academic readiness and improving fine and gross motor skills. ECLC instructors work closely with kindergarten and elementary teachers to develop appropriate programs. Our curriculum for language, literacy, and math supports our preschoolers as they learn the skills to successfully transition into kindergarten. Music, gym class, and library enrichment enhance the curriculum. More real-world experiences await them through on campus and off campus field trips.

Life skills develop through structured and unstructured discovery and play time. Your child will begin to learn how to resolve conflicts and solve problems on their own. Group activities teach respect for others, taking turns, following directions, and the ideals of Christianity.

Come take a tour of St. Peter's ECLC. You'll find large, friendly classrooms and a welcoming staff ready to help your child grow and succeed. For more information, contact us at:
